UPDATE TO JCIDS

CJCSI 3170.01F
& CJCSM 3170.01C

Major Change

- JROC delegates validation authority
  - JCB validates ACAT II JROC Interest documents
  - Lead FCB validates ACAT III JROC Interest documents
- VCJCS approves all JROC Interest documents via JROCM
  - Maintains execution of Title 10 responsibility

Approved JCIDS Changes

- JROCM 100-05 – Streamlining JCIDS
- JROCM 102-05 – Safe Weapons in Joint Warfighting Environments
- JROCM 120-05 – Incorporating Force Protection and Survivability KPPs
- JROCM 062-06 based on FCB Stakeholder conference and other changes
- JROCM 161-06 KPP Study results
- JROCM 163-06 Comment Resolution
- JROCM 005-07 Removed requirement for Insensitive Munitions certification

Other Changes

- Added clarification on application of JCIDS to IT systems
  - Systems with investment less than $15M not required to submit
  - Expanded description of FAA, FNA, FSA to include specific language for IT capabilities
- Added Joint Capabilities Technology Demonstrations (JCTD)
- Sundown clause on Mission Area ICDs
- Policy guidance on sustaining existing capabilities, P3I, tech refresh, recapitalization, COTS and NDI solutions

Other Changes (cont'd)

- Added a top-level description of CBP and the linkage to JCIDS
- Provided additional guidance on transition between JUONs and JCIDS to establish a program of record
- Identify linkage between JCIDS analysis and lessons learned, IPLs, GWOT assessments, etc.
- Clarified the meaning of the term "sponsor" for each document
- Clarified approval of multiple program increments in a single CDD

Other Changes (cont'd)

- Provided enhanced guidance on CBAs (linked to CBA Guide)
  - Added description of how key strategic documents impact on the CBA process
  - Exemplar process flows for COCOM led, FCB led, and Service/Agency led CBAs
  - Provided a description of how COCOMs can use the SWarF process to identify and advocate capability needs
  - Enhanced the description of the CBA process and requirements based on the CBA Guide and lessons learned
    - Provided a set of questions to guide analysts through the steps of the CBA
  - Added linkage between CBA results and recommendations for technology development or joint experimentation
- Provided additional guidance on the process to update KPPs
- Described the process for request and approval of waivers

Recent Changes not in Version F/C

- JROCM 262-06 – Cost Drivers, Technology Readiness, Interdependency
  - Incorporate technology/manufacturing readiness into CDDs and CPDs
- JROCM 047-07 – Combat ID – Blue Force Tracking
  - JFCOM will review all JCIDS documents during staffing and assess applicability of Combat ID/Blue Force Tracking
- JROCM 074-07 – System Training KPP
  - Provides additional clarification/guidance on assessing the applicability of the System Training KPP

QUESTIONS?

JROCM 100-05 – Streamlining JCIDS

- Bypassing Flag review if O-6 review is successful
- Semi-parallel staffing of an ICD and CDD
- Minor changes - brief to FCB then JCB/JROC without staffing
- Joint Information JPD established
- Staffing guidelines on JROCMs
- Tracking JROCM taskings

JROCM 102-05 – Safe Weapons in Joint Warfighting Environments

- Established the Joint Weapons Safety Technical Advisory Panel
- Advises DDFP, who makes recommendations to the JROC

JROCM 120-05 – Incorporating Force Protection and Survivability KPPs

- In compliance with NDAA 2005, provides guidance in incorporating new KPPs
  - JROC Interest capabilities documents will be updated or incorporate the new KPPs unless justification provided
  - FCBs assess the applicability and recommend validation to the JROC
  - Non-JROC Interest documents are the responsibility of the Services/Agencies

JROCM 062-06 JCIDS Changes

- All JCIDS documents will identify the relevant JCAs (Tier 1 and 2)
  - Begins the process of using a common lexicon for capabilities
- Acceleration of KPP change consideration
  - Enhances flexibility and timeliness is addressing KPP issues
  - Proposed change will be assessed by lead FCB
  - If no issues, it will be referred to the JROC/JCB for approval without staffing

JROCM 062-06 JCIDS Changes (cont'd)

- Requirement for Post Independent Analysis
  - ➢ Questionable value added – will reevaluate in next update
  - – Not required for JROC directed CBAs
  - – Optional for sponsor initiated CBAs
- Use of a CDD in lieu of CPD for MS C
  - ➢ Streamlines approval process where program is on track
  - – No changes from CDD
  - – Updates for NR-KPP certification provided
  - – JROC re-validates the CDD as a CPD

JROCM 062-06 JCIDS Changes (cont'd)

- CBA Study Plan
  - ➢ Provides up front guidance and scoping of CBAs
  - – Required to initiate a JROC directed CBA
    - Approved by JCB/JROC
  - – Establishes the scope of the CBA
- Alternate CONOPS will be considered for JROC directed CBAs
  - ➢ Ensures full scope of alternatives considered
  - – FSA should include an alternate CONOPS
    - Based on results from FAA/FNA, war games, experimentation, etc.
    - Potential to eliminate or change the scope of gaps found in the CBA

JROCM 062-06 JCIDS Changes (cont'd)

- Joint Experimentation guidance
  - ➢ Identifies areas for coordination with joint experimentation
  - – JE can provide insight during CBA (part of CBA Study Plan)
  - – JE can be driven by the results of the CBA (included in CBA recommendations)
- Additional threat information in JROC Briefs
  - ➢ More information will be provided to clarify
    - Risks
    - Actions taken to counter or mitigate threats
    - Additional resources programmed to counter the threat

JROCM 062-06 JCIDS Changes (cont'd)

- CONOPS as a basis for a CBA
  - Clarifies that a COCOM, Service or Agency CONOPS can be used as the basis for a CBA
  - Derived from JOCs
  - An approved JIC is not required for every CBA

JROCM 161-06 KPP Changes

- KPP Study –
  - New Mandatory KPP for materiel availability (materiel reliability and ownership cost)
  - Selectively applied KPPs on system training and energy efficiency
  - Proposed process for initially identifying applicable KPPs
  - Future documents will identify the timeframe when the capability is required

JROCM 163-06 Comment Resolution

Comment Resolution Times

Document	Median	Average
ICD	56	60
CDD	62	92
CPD	63	70

- Suspense for all documents is to complete comment resolution in 45 days
- At 30 days – KM/DS will notify the Sponsor, Lead FCB and CAD/AO – Two options:
  - Submit document within 15 days
    - Unresolved critical comments will go through Phase 2 staffing
      - Critical comments that remain unresolved will be referred to the FCB/JCB/JROC for resolution
    - FCB will assist in resolving all others
  - Request a waiver in writing to the Lead FCB
    - 15 days or less extension can be approved by the FCB AO
    - Beyond 15 days approved by FCB Chair
- At 45 days – Document removed from KM/DS unless a waiver is approved
  - Sponsor will resubmit for Phase I staffing at a later date
